SUMMARY

Fresh graduate with hands-on experience in software development, data analysis, and applied AI, gained through corporate internships and research-based projects. Skilled in full-stack web development machine learning and time-series forecasting, building automation and computer vision systems for real-world business processes. Strong analytical thinker with a proven ability to turn complex datasets into actionable insights through statistical modeling, dashboard reporting, and predictive analytics. A collaborative team player with excellent communication skills, adaptable across cross-functional environments, and highly self-motivated in independently driving projects from concept to deployment.

WORK EXPERIENCE

Junior Programmer, BPJS Ketenagakerjaan August - Dec 2025

- Explored and experimented with OCR models for document extraction, face verification systems using the DeepFace framework, and automation workflows using N8N.
- Contributed to IT Master Plan (ITMP) strategic planning by developing monitoring dashboards with Looker Studio and supporting stakeholder presentations.

Operations Staff, PT Alfatih Pilar Peradaban Feb - May 2025

- Designed and developed the company's profile website handling front-end development using Laravel, contributing to digital transformation of port-related services.
- Drafted and organized licensing documentation for TERSUS (Terminal Khusus) construction, ensuring accuracy and regulatory compliance.

ORGANIZATIONAL EXPERIENCE

General Treasurer – Student Representative Council of Marine Information Jun- Dec 2024

Systems Student Association (HIMATASKA)

Universitas Pendidikan Indonesia

- Managed the organization's annual budget and ensured transparent financial reporting.
- Prepared financial reports for the Student Representative Council and supervised the financial reports of the HIMATASKA Executive Board.
- Responsible for overseeing work programs in the Economics and Business division of HIMATASKA.

Staff of Economics and Business Division – Executive Board of Marine Nov 2023 - May 2024

Information Systems Student Association (HIMATASKA)

Universitas Pendidikan Indonesia

- Responsible for designing and implementing work programs in the Economics and Business division to support the organization's income.
- Contributed to the organization's independent business activities, such as merchandise sales and bazaars.

EDUCATION

Bachelor of Science Sep 2022 - Aug 2026

3.90/4.00 GPA

Universitas Pendidikan Indonesia

- Major in Marine Information System.
- Thesis on "A Comparison of The State Space Model and XGBoost Approaches for Forecasting Capture Fisheries Production in Muara Angke".

PROJECT

Fish Freshness Check Website – CEKIN

Jun 2025 - Present

Independent Research Project

- Designed the user interface (UI/UX) for the CEKIN website.
- Developed the website's front-end (Tailwind CSS, JavaScript) and back-end (Laravel 11) functionalities.
- Currently developing CNN and YOLO-based Artificial Intelligence models for real-time fish freshness image classification.

Small Pelagic Fish Potential Zone Mapping Website – FishZone Mapper

Jun - Nov 2024

Research Project with Lecturer

Universitas Pendidikan Indonesia

- Contributed to the research and academic writing process, including data analysis and preparation of the research paper on small pelagic fish potential zone mapping in Banten Bay waters.
- Co-authored the resulting publication in a peer-reviewed journal (International Journal of Marine Engineering Innovation and Research)...

Sukarame Underwater Nature Conservation Website – KABL-Sukarame

Jan - Juni 2024

Community Service Project with Lecturer

Universitas Pendidikan Indonesia

- Designed the user interface (UI/UX) for the Sukarame underwater conservation website.
- Developed the website's front-end (Tailwind CSS, JavaScript) and back-end (CodeIgniter 4) functionalities.
- Implemented an Artificial Intelligence (CNN) model for image classification of coral reef health and coral fish species.

ADDITIONAL INFORMATION

- **Technical Skills:** PHP, Python, SQL, HTML, CSS, JavaScript, Tailwind CSS, Bootstrap, Laravel, CodeIgniter 4, React JS, Next JS, DeepFace, MySQL, SQLite.
- **Tools:** N8N, Looker Studio, Git, Visual Studio Code, XAMPP, Laragon, Vercel, Excel, ArcGIS, QGIS, Google Earth Engine
- **Certifications:** Machine Learning Professional Certification (RapidMiner), Data Engineering Professional Certification (RapidMiner), Supervised Machine Learning: Regression and Classification (DeepLearning.AI & Stanford Online, via Coursera), Accelerating Deep Learning with GPUs (IBM Developer Skills Network), PTESOL – English Proficiency Score 497 (Language Center, Universitas Pendidikan Indonesia).
- **Awards:** Rank 5 Marine Information Systems Student Competition Week (ASIK IV) Universitas Pendidikan Indonesia (2024), Best Project Award BPJS Ketenagakerjaan Impactful Internship Program (2025).
